

# **A Letter to All International Students**

Dear All,

The novel Coronavirus has bring a lot of problems and inconvenience to all of us and we have received your concerns from your class mentors. For the safety and welfare of CPU international students community, we would like to bring to your attention the following reminders:

1. The International School has been working to make sure everyone is accessible and are in good condition every day and update all with the latest information and notices from the university. Thank you all for being cooperative in replying timely in the class Wechat groups, passing the information to your fellow students and exchanging with the class mentors.
2. Please try to stay at dorm and avoid going to the crowded places. Please don't host visitors either from other dorms at CPU or outside CPU and be cooperative with the doorkeepers for temperature monitoring.
3. For the mask, we are faced with the same problem. Some students have bought online but didn't receive it because delivery is suspended during the spring festival. We don't

have masks either but we are trying other solutions and hope it works.

4. The spring semester will start from February 17 and the make-up examination is temporarily rescheduled to February 22, 23 and 29. So please plan your travel beforehand and don't return to school before February 17. If you are staying outside Nanjing in China, you are advised not to rush to come back now.
5. For these who have to be back at school earlier, please contact your class mentor first and report your travel history truthfully. Please show your campus card for entering from the main gate (the one near the metro station). After getting back, you are required to stay in your dormitory for medical observation for 14 days. Temperature shall be monitored every day. If fever, cough, dyspnea and other symptoms occur within 14 days, please inform your class mentor immediately so that timely medical treatment can be carried out.
6. For food, vegetables and daily necessities, the big supermarkets have enough supplies and you can get what you need in Yonghui Supermarket (永辉超市)、Auchan (欧尚超市)。Anyway, just go there as long as you need to.

7. Again, have good hygiene habits, do not touch mouth and nose with dirty hands, cover with paper towels when coughing and sneezing, wash hands frequently (running water, soap, disinfectant, etc.), wear mask, and eat safely. Frequent indoor ventilation. Minimize close contact with people with respiratory symptoms.
8. The International School will be always staying with you and trying to provide whatever possible to help everyone. Let's work together to overcome the current hard time and safeguard our international students community.
